To search for specific names, type keywords into the search bar in your PDF reader. If a keyword search doesn't turn up expected results, it is recommended that you also scroll down into the alphabetical listings to search for the name, as the text-recognition software is not perfect.

The table of contents below can also give you an idea of where to look within the document for other kinds of information listed in the directory, like street guides, government listings, and advertisement indices. Note that the PDF page number and the original directory page numbers are different, because the color-printed advertisement pages in the directories were not numbered.

PREFACE.

A half century of strengthening and advancement in all that makes a great city closes in on Brooklyn this year. With a continuance of the improvement and prosperity which has marked the semi-centennial, who can tell what the centennial year will show? But there are a few things making toward completeness which are needed now. We want quick and certain transit: this is of the first importance; and its establishment should be immediate. We have many miles of streets: we should have better pavements. We have the best water: we should have more of it. We have an efficient police: we require more of them. We have a Bridge: it should be free. By the time the second fifty years have passed away all these will be perfected. Now we need measures toward attaining that perfectness. Let us have them as soon and as complete as time will admit of. We took occasion in the Directory of 1880 to refer to the great annual increase in population in our city. There has since been no subsidence of that growth. Taking the rule stated in 1880, based upon the National and State census, it was found, by comparing that census with the number of names in the Directory, that the proportion of the latter to the former was $4\frac{37}{100}$. Adopting that rule this year, we demonstrate that as the Directory of this year contains **161,238** names, an increase of **8,958** names over last year, so the population of Brooklyn is **704,610.** Truly a mighty city—and great not only by reason of its population—but as well because it is the city of homes—of good order—of intelligence, and of markedly pure and beneficial civic government. May it ever, as it now does, shine forth as a model containing all that makes a great, a prosperous, and a happy community.

BROOKLYN, June, 1884.

RHEUMATISM

By the careful and judicious use of hot air, steam, friction, massage and water in the Turkish and Russian Baths, and the different forms of applications of that most

POSITIVELY

powerful of all remedial agents, Electricity, we can and do absolutely cure nearly all cases of Rheumatism, whether acute or chronic, muscular or arthritic, neuralgic or gouty, sciatic or lumbago.

CURED.

We not only cure the Rheumatism but remove the causes that produced it by restoring to healthy action the digestive, assimilative and excretory organs, and, where muscular or nervous weakness follows rheumatism or neuralgia, the electric treatment restores the lost tone and strength of the muscles and nerves.

During the past 36 years we have treated and cured thousands of cases by these means alone, many of them after years of treatment by other systems. Before taking baths or treatment consult the physician. No charge for consultation. Comfortable rooms with steam heat, electric light, elevator and all conveniences for those desiring them.

Our Long Experience and Ample Facilities enable u to execute large orders promptly at low rates.

PREFACE.

Once more we present to the citizens of **Brooklyn** their annual Directory. After several years' experience and the most favorable facilities for inquiry and comparison, we are convinced that the plan adopted in the preparation of this work is the most systematic, accurate and reliable that has yet been discovered.

The compilation this year is the result of extended and most careful work in every detail, and while in a book of such magnitude as the Directory, absolute accuracy throughout is impossible, we are convinced that it is equal if not superior to any work issued by this house.

The publisher extends thanks to the citizens who have assisted us in our labor incident to the compilation of this work, as well as our patrons for their continued support.

This year's Directory contains **271,797** names, or **14,503** more than 1897.

Very respectfully,

H. C. HALLENBECK,
RECEIVER FOR
LAIN & HEALY.

F. W. ACKERMAN,
Manager and Compiler.
